DETAILED ACTION

Response to Amendment

1. The amendment after final rejection filed on May 18, 2009 has been entered. Because of the applicant's amendment, the original objection to claim 5, in the office action filed February 18, 2009, is hereby withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Eric Babych on May 29, 2009.

The application has been amended as follows. Regarding claim 5, the claim will read among other things, "*...wherein the flange width (y') is a width between the inner end of the flange part which is located at a lower side of the flange part and the outer end of flange part formed by the female mold, and the flange width (y) is a width between the inner end of the flange part which is located at a lower side of the flange part and the outer end of flange part formed by the male mold.*" [Claim 5 Lines 12-16]

Allowable Subject Matter

3. Claims 5-11 are allowed as amended by the applicant and by the Examiner's Amendment. The following is an examiner's statement of reasons for allowance: regarding claim 5, the prior art discloses most of the claimed invention; however, the

Art Unit: 3781

prior art does not expressly disclose that the flange widths of the female and the male mold are located at a lower side of the flange part and the outer end of flange part formed by the female mold and the male mold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see Remarks Page 4 Lines 15-21, filed May 18, 2009, with respect to the §103(a) rejection of claim 5 as obvious over Shinoki et al. (Japanese Patent Application No. 11-105067) in view of Okabe et al. (5,257,709) and further in view of Uchida et al. (4,909,411) have been fully considered and are persuasive. The §103(a) rejection of claim 5 has been withdrawn.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: see PTO-892 Notice of References Cited.
